/lab_host="DH10B (phage-resistant)"
/note="Organ: lung; Vector: pT773D-pac (Pharmacia) with a modified polylinker; lst strand cDNA was prepared from pooled lung tunnor tissue, and was then primed with a Not I - oligo(dT) primer. Double-stranded cDNA was ligated to Eco RI adaptors (Pharmacia), digested with Not I and cloned into the Not I and Eco RI sites of the modified p7773 vector. Library went through one round of normalization. Library constructed by Bento Soares and M.

insulin-like growth factor I receptor precursor - rat
N;Contains: insulin-like growth factor I alpha chain; insulin-like growth factor I be
C;Species: Rattus norvegicus (Norway rat)
C;Date: 16-Mar-1990 #sequence_revision 03-Nov-1995 #text_change 21-Jul-2000
C;Accession: JC2461; A33897; PC1131

Pred. No. is the number of results predicted by chance to have a score greater than or equal to the score of the result being printed, and is derived by analysis of the total score distribution.
